

POWERING UP INQUIRY LEARNING IN YOUR CLASSROOM

A 2 Day Workshop for Primary Teachers Presented by **Kath Murdoch**

Participants will leave this 2 day workshop with a treasure trove of strategies, resources and insights into the use of a quality, inquiry based approach to teaching.

Through interactive tasks, viewing of videos, work samples and planners as well as access to resources and research-based strategies participants explore the following questions ...

- How can we create classrooms where inquiring into LEARNING is central to all we do?
- How can we use an inquiry approach across the curriculum?
- How can we personalize inquiry for students while maintaining a manageable routine?
- What frameworks and scaffolds can we use to 'anchor' student learning and guide our practice?
- How can we create contemporary contexts for real inquiry into relevant questions for students?
- How can quality thinking routines and strategies help build capacity for learning?
- How do we ensure we involve students in negotiating aspects of their learning while maintaining clear learning intentions and meeting curriculum expectations.
- How can we use technologies to engage students in authentic inquiries and to build our own personal professional inquiry networks.

Tuesday 8 & Wednesday 9 September 2020
Hills Convention Centre,
Hahndorf SA

*Testimonial: The best PD ever! Practical, engaging and worthwhile.
I'm excited to get back into the classroom and give it all a go!*
